PELLAGRA MAY BECOME A NATIONAL SCOURGE

Dr. Zeller of Illinois Tells of Inroads Disease Is Making in United States.

COLUMBIA, S. C., Nov. 4.—"While regard Mr. Rockefeller's princely for the eradication of the hook rm at its true value, we say $1,000,- for the battle against the disease pellagra would be far more val- ble," declared Col. E. J. Watson, uth Carolina's commissioner of ag- ulture, commerce and industries in address on the economic factors the pellagra problem in South rolina. He spoke before the first tional conference on pellagra, which ened here yesterday with an attend- ce of 300 prominent physicians and entists representing more than a rd of the States and the United tes Government.

Col. Watson has made a careful dy of pellagra because of the gen- lly accepted theory that it is due the consumption of impure corn d corn products. Unless preventive asures are taken without delay, he d, the corn industry will be se- sly threatened. He declared that t only the Federal Government, but corn-consuming States as well st put into force a rigorous inspec- n of corn and corn products.

National Scourge Threatens.

In this view Col. Watson has the pport of the eminent physicians and entific investigators attending the nference. All agree that radical asures must be taken, and without lay, to prevent the spread of this ease.

Dr. George A. Zeller, superintendent the State Hospital for the Insane, oria, Ill., views the situation with rm and in concluding an address ling of the recognition of pellagra Illinois and the means taken to control it, declared he believed the country is threatened with a national scourge. While the majority of the 5,000 identified cases of pellagra in the United States are in the South, the disease is by no means confined to this section, and Dr. Zeller predicted that it would very soon be as widespread throughout the entire Mississippi valley as in the South.

The discovery of pellagra in the Peoria hospital was made Aug. 7, last, since which time 130 cases have been diagnosed as pellagra, of which number forty-five of the patients have died. There is little hope that the lives of the others can be saved. Another 100 patients in this institution manifest mild symptoms of the disease. This out of a total of 2,150 patients in the hospital.

Hook Worm at Andersonville.

Dr. Zeller is convinced that patients have been dying of pellagra in this institution for years past, without the disease ever having been properly diagnosed. He admitted that patients had died of the disease before its recognition as pellagra in August last, the deaths being either attributed to sunburn or, as in two cases, the scalding of the patients while being given baths.

With the county operation of the Illinois State Board of Health and the surgeon-general of the United States Marine Hospital Service and the army thorough search work has been instituted at the Peoria hospital and at other public institutions in that State. According to reports made by the superintendents of a half dozen other State asylums, similar measures have been taken in these States to combat the disease. And, more important, perhaps, the United States Marine Hospital Service and the special pellagra commission appointed by Surgeon Wyman are already at work investigating the disease.

In the course of his remarks Dr. Zeller touched briefly upon the hook worm, and created a mild sensation when he suggested that many thousands of the Federal prisoners who died in the Confederate stockade at Andersonville, Ga., during the Civil War were victims of the hook worm.

IMMENSE SALE OF COTTON AT SANTA FE

THREE HUNDRED BALES SOLD AT 27 CENTS POUND.

Growers "Bulked" Their Product, Giving Authority to One Man to Dispose of It.

SANTA FE, Fla., Nov. 4.—The non-union farmers of this and Bland settlements who are supporters of the Mathews ginnery, having the utmost confidence in the ability of Capt. J. L. Mathews to get the best price for their cotton, "bulked" their cotton and gave him the authority to sell as he saw fit, the result being that on the 3rd he sold to the Brantley Company, through Mr. Littlefield, something over 300 bales at twenty-seven cents without cutting, he taking ginner's weights.

They are loading here today. There will be ten carloads or more. This is the second sale this season, two carloads having been sold here before.

Who will say that Santa Fe is not on the map?

HIGH SPRINGS NOTES.

HIGH SPRINGS, Nov. 4.—Our school is doing nicely under the proficient management of Prof. Guy and his able assistants.

On last Friday afternoon the school rendered a most interesting program, at which time the local W. C. T. U. presented the school with a lovely picture of Miss Francis E. Willard. The presentation speech was made by Capt. T. H. Willard and accepted by Prof. Guy, in behalf of the school.

On Sunday evening at the First Baptist church, the members of the local W. C. T. U. rendered a most delightful program, consisting of temperance songs, recitations, prayer and a talk, at which time eighteen new members were enrolled for the cause of temperance.

Mr. and Mrs. Will Godwin of Fairfield have been in town visiting relatives and friends for the past week.

Mr. and Mrs. Sydney Fuller have returned home from a month very pleasantly spent at Inverness with the latter's parents.

The piano contest closed on Saturday, Oct. 30th, Miss Susie Bryant being the successful candidate. Miss Lillie Morrison won second prize.

Mr. Humphreys returned yesterday from New York, where he was called a few days ago on account of his mother's death. He has the sympathy of our people.

Cities on the Pacific Coast are spending or preparing to expend more than $50,000,000 to improve their harbor facilities in anticipation of the increase in shipping expected upon the completion of the Panama canal. Oakland, Cal., plans the ultimate expenditure of $25,000,000, San Francisco will spend $10,000,000, Portland, Ore., $10,000,000, Los Angeles, $10,000,000, San Diego $1,500,000 and Marshfield, Ore., $500,000. Some of the work is actually under way at the present time and there are many smaller projects planned. The Oakland city council will vote on the first issue of bonds to the amount of $2,500,000 next month.

LIVE 'POSSUMS GREET PRESIDENT AT MACON

The "Big Bill" Smile Made Columbus People Happy When Train Stopped There.

MACON, Ga., Nov. 4.—Complete in every detail and in strict conformity to the President's wishes are the arrangements for his visit to Macon.

Early this morning the Presidential party was met at the Union Station, where the special train is parked, by a number of Macon citizens, who accompanied the President to the residence of Congressman Charles L. Bartlett for breakfast. The Bartlett home has been attractively decorated for the occasion. Mrs. Bartlett was assisted by eleven Macon ladies in receiving the guests in the drawing room. After a brief reception the party was ushered into the spacious dining hall. A feature of the menu was the mint julep, such as has been brewed in the South since Henry Clay's time. On the way to the fair grounds the President was accorded a rousing ovation by thousands of school children stationed at vantage points along the route.

After a short speech the President inspected the agricultural exhibits and displays of woman's work at the fair.

From every section of Central Georgia crowds have been pouring into Macon for twenty-four hours. The welcome extended Mr. Taft is genuinely cordial, and decidedly void of formality.

The city's decorations are elaborate and suggestive of "Taft day." A striking feature and one wholly unique is the decorated front of one store on the President's route. On two persimmon trees appear four 'possums, real live marsupials, which grinned their satisfaction at being made the cynosure of the gaze of the President of the United States.

Columbus Surrenders.

Columbus, Ga., Nov. 4.—President Taft's special rolled into Georgia at 10:10 o'clock last night, reaching Columbus on the dot, and the President was given an enthusiastic reception at the Union passenger station, where a large crowd had gathered, the station being filled.

Mr. Taft promptly appeared on the rear platform and was greeted with rousing cheers. In an eight-minute speech he thanked the people for their cordial reception, expressed his regret that a misunderstanding had arisen as to the length of his stay in this city, made a happy reference to the importance of Columbus as a cotton manufacturing center and expressed his great pleasure at being again on Georgia soil, saying that two of the happiest months of his life were spent in this State last winter.

The President expressed his regret that anyone should think that he violated his pledge in regard to visiting Columbus, but said that it could be readily understood that in arranging a 13,000-mile trip it was not possible to have everything just as desired. There were several cries of "God bless you" from the crowd and a beautiful bouquet of roses was sent to the platform, which Mr. Taft accepted with pleasure "as the first flowers given him in Georgia."

Judge A. W. Cohart, in behalf of the citizens, made a brief talk, thanking the President for his visit and his address, and saying in conclusion: "We assure you there is no city where you have more friends than in this, the city of Columbus." There were renewed cheers as the special pulled out of the station. The stop here was for ten minutes.

Tammany Lost Control, But Not To Republicans

NEW YORK, Nov. 4.—Battle-scarred Tammany, which elected a mayor st lost a city, took up yesterday the omy work of setting its house in der for four years of avowed anti- mmany government in Greater New rk.

Analysis shows that the election ich resulted in the defeat by the ion forces of every important Tam- ny Democratic candidate below the yor, was more of a victory for the ti-Tammany Democrats who had ed up with the Republicans under fusion banner than for the ight-out Republicans.

Anti-Tammany Democrats elected the Republican fusion ticket for four years will be in absolute control of the city purse strings. They will have a clear majority in the board of estimate and apportionment, one of the most powerful municipal bodies in any city of the world, and therefore the right of spending more than a billion dollars of the city's money.

The board of estimate as elected includes, besides Mayor-elect Gaynor—who in the past has been a strong anti-machine man—five anti-Tammany Democrats and two Republicans. The sixteen votes allotted the various members of the board are so distributed that besides Justice Gaynor's three ballots, the anti-Tammany Democrats will have nine and the Republicans four.

National Geographic Society Votes Medal for Peary

WASHINGTON, Nov. 4.—For having reached the North Pole Commander Robert E. Peary was yesterday voted a gold medal by the National Geographical Society.

The board of managers of the society accepted unanimously the report of its sub-committee of scientists who had examined the explorer's records and proofs and found them to be conclusive of his claim, that he had reached the pole. The society adopted a resolution that the question of whether or not any explorer reached the North Pole prior to 1909 shall be referred to a sub-committee of experts with authority to send for papers or make such journeys as may be necessary to inspect original records. This indicates that the society proposes as soon as possible to pass upon the records of Dr. Frederick A. Cook. The scientists will spare no expense in order that they may be convinced on this point. Dr. Cook will be advised immediately of the society's action.

Man Crossed Ocean To Kill the Girl He Loved

BLUEFIELD, W. Va., Nov. 4.—A mance of two continents had a gic ending yesterday at a coal min- village near here. A Sicilian rl, who had two sweethearts, jilted e and came to America recently to rry the other.

Michaelo Brunilda, the scorned lov- followed. He traced the couple, r. and Mrs. Vincent Fairdnice, from ooklyn, where they were married the girl's arrival to West Virginia, where the husband went to work in the mines.

The old sweetheart came here yesterday and found the girl he loved in the home of her husband. He fired at her, the bullet entering her breast.

The woman secured her husband's pistol and fired at Brunilda, wounding him just as her husband entered the door. The latter took the pistol from his wife's hand and killed Brunilda, after firing shot after shot into him.

Two Hungry Bull Dogs Were Guarding Dead Man

SAVANNAH, Nov. 4.—Peter G. Leist, who claimed a dozen trades and professions, but who was a hermit, was found dead at his home near Savannah yesterday. He had been dead since Mogday. He was seated in a chair, apparently staring at the wall of his room on which he had written his will, leaving his property, which is considerable, to his son, who is in school at Sharon, Ga., or in the event of his death, to Henry Dreyer of Brooklyn, N. Y. Two hungry bulldogs were guarding the dead man and threatened the police with their fangs.

A year or more ago Leist's wife killed herself by blowing out her brains with a pistol. He shortly afterwards married again after an acquaintance of eight hours and was at the time of his death seeking a divorce. Since he separated from his second wife he became an absolute hermit, though he had never cared much for the society of others.

SPECIAL TRAIN FOR MARION COUNTY FAIR

THE MATTER HAS BEEN TAKEN UP WITH HEADQUARTERS.

Ticket Agent Goodwin Will Use His Best Efforts to Get Special Service.

Local interest is increasing in the Marion County Fair and it is now more than probable that a special train will be run from this city to Ocala during the Fair.

W. L. Denham and others of this city have taken the matter up with Ticket Agent Goodwin and he will at once make requisition for a special train to leave Gainesville about 8 o'clock in the morning, giving the entire day in the Brick City, returning to leave Ocala at about 6 or 7 o'clock.

While every day at the Fair will be interesting, it is thought that the second day will by far prove the most interesting one, for everything will have been placed and in readiness for the great show and the horses will have become accustomed to the track. The track is one of the fastest and best to be found in the State and this feature alone should attract thousands to the Brick City. Some of the best horses on the Florida turf will be seen, besides a large number of outside stock will be there to compete for the prizes offered.

One of the horses that is now spoken of as a great favorite is owned by our former townsman, J. Mason Tison, recently purchased at great expense, and is known as "Lady Lou." In speaking of this fine pacer, the Orlando paper has the following to say:

"The great pacing mare, 'Lady Lou,' property of Mr. O. R. Duckworth, who wintered here last season and won every race with her in which he started at our race meet, has been sold to Ocala parties. This is one of the greatest pieces of horseflesh ever seen in Orlando and the horse that beats her this season will know that he has been in the races. 'Lady Lou' has a record of something like 2:22, but has been miles much faster, working out here this summer a number of times in 2:17, and was not urged. She is game, sensible, quiet and a great road mare, and we congratulate the Ocala parties on her purchase."

The exhibits that will be seen on this occasion will compare most favorably with the State Fair to be held at Tampa later on, while the amusement features are all that could be asked for. The association have contracted with one of the largest concerns in the North to send high-class attractions and the space alloted for their tents will aggregate about three thousand front feet along the great midway.

In visiting Ocala the people will have the opportunity of going and returning the same day if Agent Goodwin is successful in getting the extra service which he is now at work upon.

For this special occasion the city will be gaily decorated, the mayor has ordered a reduction in the hack fares, and by visiting the Marion County Fair you will see a great deal and not be "pulled" as you would to visit other places.

The Fair will be in progress for three days, from November 24-26, and it promises to be the grandest event ever held in Central Florida, and an example that could be followed by many other counties of the State to induce settlers to their respetcive communities.

At the Baird.

The double bill, consisting of Misses Katherine Howard and Elsie Russell, introducing refined comedy character changes, at the Baird last night was largely attended and the crowd showed their appreciation by most liberal applause.

This team will be here the remainder of the week and are as good as have been secured here this season.

UNIVERSITY NOTES

The first collegiate fooball game of our University was successfully carried through. We feel proud of our team, and hope to see it add victory upon victory to its merited credit. The 'Varsity team will play Stetson's team at DeLand Saturday. We have faith in our boys and will await their return with pride.

The second team, upon whom the "Pile Drivers" practice their maneuvers, will have a chance to demonstrate its quality in its first game with the Duval High School, at Jacksonville, this Saturday. The University second team will line-up as follows: Jimmie Powers, Capt. and quarterback; T. J. Swanson, right guard; G. Taylor, left half; Pokey Davis, fullback; Fred Pile, right end; Allie Shands, left end; Roege, right tackle; Ward, left tackle; Willie Robertson, right guard; Loybb, left guard; C. Rush, center.

The University has been presented with a gift of $150 for the improvement of its athletic field.

Mr. Lee Graham, assistant cashier of the First National Bank of this city, presented the University with a fine collection of bird eggs.

Professor P. H. Rolfs, director of the Florida Experiment Station, made an eloquent address to the student body in chapel last Tuesday morning upon the "Increasing Agricultural Industries of Florida."

The University has been presented with $750 by the Chamber of Commerce of Pensacola for the support of ten men whom that body will send here from Escambia county to attend a special three-months' course in agriculture, which commences Tuesday. This short course is an exceedingly good one and it should be taken advantage of by all the industrious young farmers of the State.

The University will exhibit mainly from the shop and agricultural departments at the Tri-County Fair, at Pensacola, on the 9th to 12th, inclusive.

Prof. J. J. Vernon, who was extremely successful last year in his correspondence course for the teachers of agriculture, has an enrollment of three times as many this year as that of same day last year.

Dr. Cloar delivered an address on "Personal Work" to the University students at the Y. M. C. A. hall last Sunday.

The agricultural department has so increased that it was necessary to include another assistant for the handling of the work.

A Press Club was organized by the students of the University for the purpose of furnishing the different papers of the State with interesting news notes.

At the last meeting of the Athenaeum Club, held at Prof. Vernon's residence, a very interesting paper on "The Exploitation of the Tropics" was read by Prof. Belling.

The law students are making great progress in their debating society. Their next subject for debate is "Resolved, That Women Should Have the Right of Suffrage."

B. B. Barco was promoted to captain of Company A of University Cadets, and Steffie to be first lieutenant.

Major Walker has already distributed the rifles to the cadets of the University.

The Value of Good Digestion

Is easy to figure if you know what your stomach is worth. Kodol keeps the stomach at par value, by insuring good digestion. Kodol cures Dyspepsia.

Kodol insures good digestion by absolutely duplicating Nature's normal process, in perfectly digesting all food taken into the stomach.

While Kodol is doing this, the stomach is resting—and becoming strong and healthy. A strong and healthy stomach guarantees a sound and active brain.

The man with a sound stomach—a stomach that is doing for the body just what Nature intended it to do—is the man who is always prepared for any emergency. He is "there with the goods."

The man with a sick stomach, is a man sick all over. When the stomach is irritated by undigested food, the blood and heart are directly affected. Then dullness, unnatural sleepiness, sick-headaches, vertigo and fainting spells, and even serious brain trouble develop. Kodol will prevent these.

Spurring the stomach and brain to special effort by "tonics" and "stimulants" doesn't cure anything, or accomplish any good. Neither does dieting. Indigestion and the serious ailments which it induces can be averted and corrected only by natural means.

Kodol supplies this natural means. It performs the stomach's work for it—just as the stomach should perform it—while the stomach takes a little rest, "for the stomach's sake."

T. & J. RAILWAY OFFICIALS MET THURSDAY

MANY IMPORTANT MATTERS DISCUSSED FOR GOOD OF ROAD.

Directors Adjourned to Meet in Jacksonville Again Today to Finish Business.

The annual meeting of the Board of Directors of the T. & J. railway was held in this city Thursday at the general offices of the company, but after a short session the board adjourned to meet again in Jacksonville today. Among the more important matters discussed at this meeting was the condition of the road and its rolling stock, and it was decided to at once commence the improvement in order to meet the requirements of the roadbed during the coming busy season. Reports of the affairs showed that it was being handled in a most satisfactory manner, and besides the improvements made, it is being operated in a most substantial manner and is having a paying piece of roadway for its stockholders.

General Manager Glass received favorable mention from the directors for the manner in which he has managed the affairs and brought the road to the front again.

One of the main improvements is a motor car to run between this city and Sampson City to connect with the G. S. & F. railway. The car will be so constructed as to meet all of the present needs in the way of baggage and express, etc.

Nearly all of the directors of the company were present and they departed in the afternoon to meet in Jacksonville today, when the plans for the motor cars will be further discussed, and the manager hopes definitely decided to be in operation within a very short while.

The Source of Cottolene Is Pleasing

From the snowy tufts of the cotton plant, the seed is removed, crushed, and the oil extracted. This in turn is refined by our own special process and the oil made odorless and neutral in taste.

Being a vegetable product, cottonseed oil is free from any possible taint of animal infection. You cannot be absolutely sure of this when buying hog lard, for fats of animal origin are, of necessity, not as healthful as fats obtained from vegetable sources. Right there is the difference between lard and *Cottolene* from the standpoint of health.

If every housewife would but stop to think of the difference in purity, cleanliness and healthfulness of hog lard and *Cottolene*, lard would never again be used in any home.

COTTOLENE is Guaranteed Your grocer is hereby authorized to refund your money in case you are not pleased, after having given Cottolene a fair test.

Never Sold in Bulk *Cottolene* is packed in pails with an air-tight top to keep it clean, fresh and wholesome, and prevent it from catching dust and absorbing disagreeable odors, such as fish, oil, etc.

AVERA—ALLEN.

It is doubtful if a more brilliant or more beautiful nuptial scene was ever witnessed in McIntosh—famous for pretty weddings—than was the wedding of last Wednesday evening at the First Christian church when the fair hand of Miss Mary Sue, the pretty and attractive daughter of Mr. and Mrs. W. E. Allen, was given in marriage to Mr. Drayton Avera of Gainesville, and these two plighted their troth, each to the other, to love, honor and cherish through life's journey.

As the hour of 6:30 o'clock approached the guests began to arrive to witness the wedding and share in the happiness of the young people, and to do them honor.

The girl friends of the bride showed rare taste in their selections of such beautiful palms, bamboo, pot plants and cut flowers, which decorations made the church an appropriate setting to a fairy scene.

Mrs. Flewellen played the Mendelsohn Wedding March and the bridesmaids, Miss Fanny Allen and Miss Virginia Allen, in beautiful dresses of white lingerie elaborately trimmed with laces and ribbons, entered the church from the left aisle, followed by the bride, Miss Mary Allen, leaning on the arm of her father, Mr. W. E. Allen.

The ushers, Mr. Clark C. Chitty of Gainesville and Mr. Howard Bateman of McIntosh, entered the church from the right aisle followed by the groom attended by his best man, Mr. M. F. McCook of Gainesville, meeting the bridal party at the altar, where the beautiful marriage ceremony of the Christian Church was solemnized by the Rev. Mr. Coleman of Ocala.

The bride's exquisite gown was a white crepe de chene elaborately trimmed with embroidered net with ribbon and laces, her veil being of white tulle. She carried a large shower boquet of bride's roses.

Immediately after the ceremony the bridal party and guests repaired to the residence of the bride's parents, where a sumptuous wedding supper was served.

The fair bride is one of McIntosh's most beautiful young women. She has just reached young womanhood and numbers her friends by hundreds. She is the eldest daughter of Mr. and Mrs. W. E. Allen, is possessed of a bright mind, and is accomplished in the arts of home and society. She possesses a charming personality and sparkles with wit and repartee. She will be greatly missed by her many friends, and Gainesville, her future home, is indeed securing for herself a rare jewel.

Mr. Avera is a prominent and successful insurance man of Gainesville and is possessed of all the good traits of a manly man, and will make the young lady who has intrusted her heart and life to his keeping a fit husband and companion.

The young couple left immediately after the wedding supper for Ocala amid showers of congratulations and best wishes. They will visit different points of interest in the State, after which they will be at home to their many friends in Gainesville.

HAD PLEASANT TRIP.

Party Visit Grand Island in Automobile From Gainesville.

Mr. and Mrs. E. E. Cannon, Mesdames J. L. Medlin and J. B. Dell, Jr., with C. W. Hill in charge of the machine, returned yesterday from a short visit to Grand Island, where they went to take a look at the handsome orange grove property of Mr. Cannon.

The party left Gainesville on Wednesday morning, arriving at their destination in the afternoon, and on the return trip left Eustis at 11 a. m. and arrived in Ocala at noon. After spending a few hours there they resumed the journey to Gainesville, making the trip here in two hours.

Mr. Hill, who had charge of the car, which was an E. M. F. Model 30, states that the entire distance was covered in five hours and twenty-five minutes and the roads between Eustis and Ocala were in bad shape.

If you suffer from indigestion, belching of gas, lump of lead on stomach, biliousness, dizziness, foul breath, nervousness, constipation, or headache, give J. W. McCollum & Co. 50 cents today for a box of Mi-o-na, the celebrated stomach prescription, and if it doesn't cure you they will give you your money back. It relieves painful stomach distress in five minutes. Read the following:

"I had stomach trouble for years. After eating I would be troubled for an hour or so with indigestion. I bought one box of Mi-o-na tablets from Gaffney Drug Co., which completely cured me. That was 12 months ago and to this day I have not been troubled again."—J. B. Hackey, Gaffney, S. C., April 20, 1909.

Mi-o-na is the best prescription for stomach trouble ever written; not only does it give quick relief, but it cures permanently because it thoroughly cleanses, renovates, builds up and puts elasticity into the stomach and bowels. Mi-o-na is put up in tablet form and is small and easy to swallow. Sold by leading druggists everywhere and in Gainesville by J. W. McCollum & Co., who rigidly guarantee them. Test sample free. Address Booth's Mi-o-na, Buffalo, N. Y.

WILL TAKE NEW COURSE.

Dr. Geo. S. Waldo Will Install X-Ray in His Offices.

Dr. Geo. S. Waldo will leave today for Philadelphia to enter the Medico-Chirurgical Institute, and will be absent for the next few weeks to take a post-graduate course for this class of work, together with the X-ray.

He states that on his return he will install in his office in this city a complete outfit and X-ray coil for the purpose of making skiagraphs and the treatment of certain diseases with the high frequency current.

Mrs. Waldo will accompany him on the trip and following the completion of the course at Philadelphia they will visit the old home of the former's mother in Washington, also New York and Baltimore.

..BELT PINS..

Buckles are undoubtedly a thing of the past. Some beautiful belt pins are shown in the most elegant designs. Odd shapes with big sets are very popular.

Hat Pins—Of hat pins there are a thousand and one different styles, all of which are worthy. There are pins with metal rims framing jewels of different kinds, and there are pins of metal alone and jewels alone. Silver Hat Pins are good because they go so well with the trimmings used on the hats.

The first and second days of our Piano Contest proved interesting, as friends of the girls and young ladies are getting busy in order to have them among the first.

Are necessary to convince the wise man of the need of an abstract in the purchasing of real estate.

YOU wouldn't purchase some merchandise the ownership of which is in doubt—yet you buy property whose title might be perilously clouded.

An abstract gives you the history in full of the property—advises you of what you're buying.

Cornelius Burkhardt says that a chafing dish is simply a frying pan that's got into society.

Holland's expenditures on her colonies for the year 1910 are estimated at $91,750,000, and her revenues therefrom at $82,000,000. Colonial possessions should be placed on the list of luxuries.

Action of President Gomez of Cuba is establishing a registry to enroll and supervise all banks, corporations and mercantile companies doing business in Cuba, is said to be unconstitutional. The "unconstitutional" microbe seems to be spreading.

Insufficiency of skilled labor to meet trade requirements is reported, and yet the park benches remain comfortably filled. Scientists must certainly be wrong about that hook worm malady being limited to the South, says The Wall Street Journal.

The net profits from the DeBeers diamond mines are said to be about $25 a minute or $36,000 a day. It is estimated that more than $500,000,000 worth of precious stones have been taken from the diamond mines at Kimberley. For many years the sales from these mines have run from $2,000,000 to $30,000,000, and it is reported that the mines seem to be inexhaustible.

Governor Gilchrist has appointed over 600 delegates to the Mississippi-Atlantic Inland Waterway Association, which meets in Jacksonville on the 15th. Almost enough to dig the proposed inland waterway if they would devote as much time to the use of the shovels as they will do wind-jamming. Why not work these things on the old-fashioned log-rolling plans? remarks The Tampa Times.

Within the last five years, the streets of Pekin, China, have been remade. The main avenues have been divided up into sidewalks and roadways. Granite gutters now run along on each side the main streets, and trees have been planted throughout the whole city. The roadways have been leveled and built up with macadem, so that they are as solid as those of any street in Japan.

The Canadian government is not resting on its oars regarding the water transportation facilities within its jurisdiction, the expenditure during the fiscal year ending March 31 having been $7,873,693 for dredging and for works on harbor and rivers; and in the same year an act passed insuring a subsidy of 3 per cent for 20 years, up to $45,000 per annum to companies building dry docks in the Dominion. Already this provision is being taken advantage of, the Vancouver Dry Dock & Shipbuilding Company having been the first to begin operations; two other applications have been filed and another is now in preparation. At the same time the canal traffic reports, for the last six months along the routes upon which the government has expended much of the capital reported in the dredging and rivers account, shows an increase of 11,000,000 tons.

THE GAME LAW.

For the benefit of strangers and others we again publish the game law of Florida, as is requested by several parties.

The game law makes it unlawful to hunt, kill, chase, molest or have in your possession any wild deer except during the months of November, December or January. Venison or deer hides cannot be sold, exposed for sale or transported for sale.

Persons are prohibited from hunting, killing or having in their possession any wild turkey, quail or partridge except during the months of November, December, January or February, and no person shall kill more than two wild turkeys or more than twenty quail, and no party of two or more persons shall kill more than four wild turkeys or more than forty quail in any one day; no person shall kill more than five wild turkeys in any one year.

The sale of quail, turkeys and partridges is absolutely prohibited, and no person is permitted to ship any deer, deer hide or hides, venison, wild turkey, quail or partridge beyond the limits of the county in which they were killed. Persons may take their game home with them when the same is killed in another county than where they reside.

All persons who are not citizens of this State must pay license of $10 to the clerk of the circuit court before they shall be permitted to hunt in this State, which license is only good for the county where it is issued.

Ducks cannot be killed between the 1st of April and the 1st of October.

It is unlawful to have in your possession, living or dead, or to catch or kill any wild bird other than a game bird, at any time of the year, game birds being particularly designated as geese, coots, plovers, surf birds, snipe, woodcock, sand pipers, tattlers, curlews, river and sea ducks, brant, rails, mud hens, wild turkeys, grouse, prairie chicken, pheasants, partridges, quail, turtle doves, tame and wild pigeons and robins.

DROPPING FROM THE CLOUDS.

How it feels to drop from the clouds in a parachute is thrillingly described in the November number of Popular Mechanics by Captain Penfold, the famous Australian aeronaut. He says:

"Glancing up at your parachute to see if the cords are disentangled, you grasp your trapeze rope by one hand, your cutaway line with the other, cross your legs around your trapeze bar, collect your thoughts, and pull the knife. At once the wind rushes past you, you fall as if pushed, unprepared, from a high stage into the water at the baths. You look overhead to see the parachute open, the parachute cloth is dropping in a bundle to reach you as it were, but before it does, your weight tells and pulls the cords straight, the wind catches under the cloth of your canopy, you have a few anxious moments as it slowly unfolds like a huge umbrella and with a slight tug (as if a fish were running away with your fishing line) you are supported like a feather, and you experience a feeling of satisfaction and safety. Down you float to terra firma like a bird on outstretched wings, and if it is a calm day your descent is almost vertical at the rate of eight to ten feet a second. When nearing the ground the earth seems to rush up to meet you, and what, at a height of a thousand feet seemed a small box in an allotment, turns out to be a good sized house. You reach the ground as if in a free drop from a height of about four feet."

The best place to buy your goods is at the store which invites you to come through an ad. in The Sun.

THE FARM LABOR NEEDED.

Among the other handicaps with which the South has been burdened is the old notion—handed down from the days of slavery—that it is discreditable to do manual labor. The "overseer' of the old regime was there simply to see that the "hands" worked. The present day demand is for men who can, first of all, work themselves, for men who can do the things which the untrained negroes would slight or botch or patch over, and for men who can at the same time train these inefficient, indolent "hands" to do better work, says The Progressive Farmer.

We scarcely need any more "common labor"; but all over the land there is a crying demand for men who really know how to farm. We have thousands more plowmen than are really needed for the acreage that is cultivated; but most of them don't know how to plow. Can the ordinary farm hand of the South be trusted to keep a plow in good shape, to run it level and true, and to adjust it to the demands of the soil and the team so as to get the best results with the least expenditure of muscular force?

Next to men who will farm for themselves along improved lines, the South needs today men trained for managers and foremen, and, yes—for plain workmen. Dairymen, stockmen, gardeners, orchardists, men who really know how to feed a team, to hitch it up and to drive it, men who really know how to break the land, how to harrow it, how to run a planter or a weeder or a mowing machine—for all these there is an increasing and an unsatisfied demand in the South today.

Such laborers we must have; and they will either come from other sections or be trained at home. There are thousands of Southern boys, too, who need just such training. Shall we not at least make an effort to let them have it?

HOW THE SOUTHRON ACCEPTS.

"Ask a Northern man to take a drink and he'll say 'sure,'" said "Tawm" Pence, the well-known Washington correspondent. "Ask a Southerner and be impressed by the more courtly manner of his acceptance.

"I was impressed by this one rainy night in New York when I espied former Governor Benton McMillan of Tennessee coming along Thirty-fourth street. I was in the station and he didn't recognize me when I sung out an invitation to sample the Bourbon in a nearby establishment.

"'I haven't the vehy faintest ideah in the world who yo' ah,'" said the Tennessee statesman, as he shaded his eyes to peer in my direction, 'not the faintest ideah in the world, but yo' vehy generous invitation faihly wahms the cockles of mah headt.,'"—From Norman E. Mack's National Monthly.

Bald Heads Not Wanted

Baldness Is Too Generally Considered a Sign of Advanced Age.

A bald-headed person does not have an equal chance with one blessed with a healthy head of hair, because baldness is too generally accepted as an indication of age. Many large corporations have established an age limit and refuse to take men over thirty-five years of age as new employes.

Almost 65 per cent of bald-headed people may regain a good head of healthy hair if they will follow our advice and accept our offer. We have a remedy that we positively guarantee to grow hair on any head, unless the roots of the hair are entirely dead, their follicles closed, and the scalp has become glazed and shiny. We want people to try this remedy at our risk, with the distinct understanding that unless it does exactly what we claim it will, and give satisfaction in every respect, we shall make no charge for the remedy used during the trial.

We know exactly what we are talking about, and with this offer back of our statements no one should scoff, doubt our word or hesitate to put our remedy to an actual test.

We want everyone suffering from any scalp or hair trouble, dandruff, falling hair or baldness, to try our Rexall "93" Hair Tonic. We want them to use it regularly—say until three bottles have been used—and if it does not eradicate dandruff, cleanse and refresh the scalp, tighten the hair in its roots, and grow new hair, we will return every cent paid us for the remedy for the mere asking. There is no formality expected and we exact no obligation from the user whatever.

We are established right here where you live, and make this offer with a full understanding that our business success entirely depends upon the sort of treatment we accord our customers, and we would not dare make the above offer except that we are certain that we can substantiate it in every particular. Rexall "93" Hair Tonic comes in two sizes, 50 cents and $1.00. Remember you can obtain Rexall Remedies in Gainesville only at our store—The Rexall Store. J. W. McCollum & Co., corner E. Main and Union streets.

George Hervey, at present manager of the big Cawthon Hotel at Mobile, has been selected to manage the San Carlos Hotel, which is now being erected at Pensacola. More than one hundred men are now at work on the building and it will be a very superior hotel.

A large number of the shippers in Pensacola, particularly among the wholesale people, have presented a petition to Superintendent Saltmarsh of the L. & N. asking that better facilities be provided for the delivery of freight shipments to the depot warehouse in that city.

A big land deal was consummated at Tallahassee a few days ago. The tract sold lies in Liberty county, and contained 20,000 acres. The deal was made for the Liberty County Land Company, a Georgia corporation, by Mr. Short of Tallahassee, and the consideration was $6 an acre, or $120,000.

NOTICE OF STOCKHOLDERS' MEETING OF TAMPA & JACKSONVILLE RAILWAY COMPANY.

Notice is hereby given that on the 20th day of November, 1909, at eleven-thirty o'clock a. m., a meeting of the stockholders of the Tampa & Jacksonville Railway Company will be held at it's office in the City of Gainesville, and State of Florida, for the purpose of transacting the following business, towit:

1. To ratify, confirm and approve the consolidation of the original Tampa & Jacksonville Railway Company and the Gainesville & Gulf Railway Company.

2. To adopt by-laws of the company.

3. To authorize the satisfaction of the existing trust deed to the Standard Trust Company, and upon surrender thereof, the cancellation of bonds issued thereunder, and the substitution therefor and execution of a new trust deed or mortgage, and the issue of bonds under such deed of trust, as therein provided. Also, the exchange, dollar for dollar, of bonds issued under such new trust deed for the now outstanding bonds under the existing trust deed.

4. To authorize the cancellation of the preliminary agreement with F. J. Lisman & Company, and authorizing the execution by the company of the final agreement with F. J. Lisman & Company for the sale of stock and bonds of the said company.

5. To authorize the purchase and retirement of all outstanding stock of the Gainesville & Gulf Railway Company.

6. To direct the payment by the company from the first moneys received from the sale of bonds and stock under the agreement with F. J. Lisman & Company of all indebtedness of the company to secure which bonds have been pledged, and also the other indebtedness, as provided in said final contract between the company and F. J. Lisman & Company.

7. To rescind the resolutions authorizing delivery to the Treasurer of Three Hundred and Fifteen Thousand ($315,000) Dollars of first mortgage bonds, to be held subject to the order of A. P. Stuckey, and the resolution of the Board of Directors authorizing the officers of the company to deliver to the Trustee Four Hundred and Eighty-Five Thousand Dollars ($485,000) of bonds and authorizing A. P. Stuckey to sell, dispose of or hypothecate the same, and to provide for the proper cancellation of the resolution authorizing a contract, and any such contract thereunder with E. W. Lane and F. W. Hoyt, as Trustees, for the purpose of placing in their hands the bonds of the company.

8. To authorize and require that the new trust deed or mortgage of the company be recorded in every county through which the road is now operated, or has property, and that the officers of the company shall record the mortgage from time to time thereafter in any other county of the State in which the company shall acquire property subjected to the lien of the mortgage.

9. To authorize the officers of the company to file the articles of consolidation in the office of the Secretary of State, as required by the laws of the State of Florida.

And such other business and action as may be necessary to carry out and effect any and all of the foregoing purposes and objects and matters in connection therewith.

10. To elect a Board of Directors and to transact such other business as may come before the said meeting.

Dated at Gainesville, Florida, this 4th day of November, 1909.

A. P. STUCKEY,
President of the Tampa & Jacksonville Railway Company.
Attest: F. M. SIMONTON,
Secretary.

The "Sillinger" Stakes.

It only takes a few hours to get from any part of England to Doncaster, see the race for the St. Leger and return home. Yet in the coaching times a journey from London to Doncaster occupied a couple of days.

Taking its name from a famous Doncaster sportsman, Colonel St. Leger—properly pronounced "Sillinger"—the race is the second oldest horse racing event in the country. It was founded in 1776 and always arouses the greatest enthusiasm in the north of England. In fact, in the prerailway days laborers living fifty miles away would save up their shillings for weeks, walk to Doncaster, see the race, have a bet and walk home again.

John Scott, who in his day was visited by peers, lawyers, poets and authors of all degrees, trained sixteen St. Leger winners. There have been many memorable finishes to the race, and on one occasion a horse named Theodore, against whom the odds were quoted at 1,000 to a walking stick—officially 1,000 to 5—won handsomely.

The largest field was thirty, in 1825, and the smallest four, in 1783 and 1785. A horse named Ninety-three won in 1703.—London Saturday Review.

Armed With a Saber Hilt.

When William L. Royall of Fauquier county, Va., was seventeen years old he became a Confederate soldier. In his "Reminiscences" he says that the feats performed by the Confederate cavalry in the early part of the war were remarkable, because not one company in ten had any arms that were fit to fight with.

"When I joined my company," he writes, "they gave me a saber which, I think, was used in the Revolution, and this was the only weapon I had. One day, while my regiment was standing in a road, I bantered a comrade to see which of us could cut the largest twig from a tree. I made a powerful cut, and the blade of my saber broke off at the hilt.

"In a short time we were dismounted and ordered to clear the Yankees out of a piece of woods in skirmish formation. We marched through the woods, but fortunately no Yankees were there. I have often wondered what I should have done, armed with that saber hilt, if I had met a Yankee armed with a Springfield musket."

Bees Swarming Have Scouts.

Swarms of bees are sometimes compelled to take refuge in very remarkable shelters. A peculiar and instructive instance was observed by the writer one spring. The swarm flew over a large vineyard which contained few buildings. One of these buildings was constructed of hollow concrete blocks. The swarm flew directly toward a small hole in one of the blocks and disappeared in the interior. No doubt the swarm had rested on a tree or shrub on the preceding day and had sent out scouts to seek a home. The scouts found the little hole leading into the great cavity of the concrete block and reported their discovery to their comrades. This case furnishes indisputable proof that swarming bees really send out scouts, as they are believed to do, for the little hole could not have been discovered in the rapid and lofty flight of the swarm.—Scientific American.

AGE NO BAR.

Everybody in Gainesville is Eligible.

Old people stooped with suffering.
Middle age, courageously fighting.
Youth protesting impatiently;
Children, unable to explain;
All in misery from their kidneys.
Only a little backache first.
Comes when you catch a cold.
Or when you strain the back.
Many complications follow.
Urinary disorders, diabetes, Bright's disease.

Doan's Kidney Pills cure backache
Cure every form of kidney ills.

Mrs. N. E. Carter, 108 W. McCormick street, Gainesville, Fla., says: "My son complained of a weak back and pains across his kidneys for some time. He came home at night, tired and hardly able to eat anything. It was difficult for him to assume a comfortable position and he felt generally miserable. Finally he decided to give Doan's Kidney Pills a trial and procured a box. This remedy soon removed all signs of kidney trouble and he has had no return of it since."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Time at the North Pole.

At the north pole time is nothing, and if one were residing at the north pole it would be unnecessary to wind one's watch. You are always at 12 o'clock and can't walk out of the hotel without walking south. All times of day meet at the pole as the meeting place of all the meridians. A man sitting with the invisible mathematical point right under him would be in all twenty-four hours at once, or a twenty-four hour watch placed on the pole could be made to point to the correct time in every part of the world. There used to be something of an approximation to this in the extreme north of Norway, where the degrees of longitude squeeze in, until recent days. Captains of Norwegian coasting schooners will tell you how inconvenient it was to change between the time of Holland at Bergen and that of Crete at the North cape while correct local time was maintained. General Norwegian time became indispensable.

A Traveler's Tale.

The passengers were beguiling the journey with pleasant conversation. One man in particular, who had the look of a traveler, told of long sojourns in foreign lands and kept them all interested with his anecdotes. "Yes, gentlemen," said he, "there is nothing like travel to expand the mind. Now, I don't suppose, for instance, that many of you have ever seen a beet root putting on a waistcoat?" His fellow passengers stared in surprise. "No; we certainly have not!" "Or a lettuce donning a pair of trousers?" "No!" "Or a spring onion fixing on its tie and collar!" "No, not even that!" "Well, gentlemen," said the traveler as the train drew up at the terminus and he prepared to alight, "you may believe me or not, as you like, but several times in my travels I have seen not only a beet root or a lettuce or an onion but a whole salad dressing!"—London Mail.

Paupers' Paradise.

The authorities of Samoa, the little island upon which Robert Louis Stevenson lived and died, provide board and lodging absolutely free to strangers who are unable or unwilling to pay for their keep. Every village on the island has a guest house, called a "faletale," and here the tourist is invited to come and be fed, lodged and entertained without any payment whatever.

The officials of the town of Klingenberg-on-the-Main, in Bavaria, are exceptionally generous, for they not only provide free beds and free board to poor people, but give away big puddings every year end to all who ask for them. Klingenberg owns several pottery clay pits that bring in so much money to the town coffers that they pay all the town expenses and leave a good round sum over, which is distributed to charity. Klingenberg is one of the few places where taxes are unknown.

ABOUT ADVERTISING—NO. 1

The Perambulating Showcase

By Herbert Kaufman.

The newspaper is a *huge* shop window, carried about the city and delivered daily into hundreds of thousands of homes, to be examined at the leisure of the reader. This shop window is unlike the actual plate glass showcase only in *one* respect—it makes display of descriptions instead of articles.

You have often been impressed by the difference between the decorations of two window-trimmers, each of whom employed the same materials for his work. The one drew your attention and held it by the grace and cleverness and art manifested in his display. The other realized so little of the possibilities in the materials placed at his disposal that unless some one called your attention to his bungling you would have gone on unconscious of its existence.

An advertiser must know that he gets his results in accordance with the *skill* exercised in preparing his verbal displays. He must make people *stop* and pause. *His copy has to stand out.*

He must not only make a show of things that are attractive to the eye but are attractive to the people's needs as well.

The window-trimmer must not make the mistake of thinking that the showiest stocks are the most salable. The advertiser must not make the mistake of thinking that the showiest words are the most clinching.

Windows are too few in number to be used with indiscretion. The good merchant puts those goods back of his plate glass which nine people out of ten will want after they have seen them.

The good advertiser tells about goods which nine readers out of ten will buy if they can be convinced.

Newspaper space itself is only the window, just as the showcase is but a frame for merchandise pictures. A window on a crowded street in the best neighborhood, where prosperous persons pass continually, is more desirable than one in a cheap, sparsely settled neighborhood. An advertisement in a newspaper with the most readers and the most prosperous ones possesses a great advantage over the same copy in a medium circulating among persons who possess less means. It would be foolish for a shop to build its windows in the alleyway—and just as much so to put its advertising into newspapers which are distributed among "alley-dwellers."

"That Which Is Worth Having Is Worth Advertising For"

The old adage that what is worth having is worth asking for is still true—true of the more intricate life of today.

The thing you want—whether it is a used piano or a home, whether it is a ready-made business or a lost pocketbook—is obtained readily through advertising, and with difficulty, or not at all, through other means.
